

THE  
AMERICAN  
CHESTNUT  
FOUNDATION®

**CHESTNUT CHAT SERIES: Chat Room**  
**CHAT # 37: Student Poster Sessions**  
**DATE : Friday, March 17, 2023**

<b>Attendee</b>	<b>Question/Comment</b>
Sara Fern Fitzsimmons:	Chat should be on?? Sorry for the delay!
Robbie Shaw:	Looks good. thanks.
Jayesh Sheth:	We would love to screen the documentary at First Unitarian in Brooklyn (I,Äm on the board of trustees and have talked about presenting information from TACF for our Earth Day service)
Sara Fern Fitzsimmons:	Hi Jayesh! Thanks for the idea, and that sounds like a great one! I'll pass this along to Lisa and our communications team to see if that location and timing would work into the screening plans.
Jayesh Sheth:	Hello Sara, thanks so much - you can reach me at jsheth@fastmail.fm in case this is possible.
Hill Craddock:	100 seedlings per species for pumila ozarkensis and alabamensis
Tree Greenwood:	She mentioned Uma (sp?) was doing follow-up of project. Nice to hear that the research continues
Martin Cipollini:	Small sample sizes for the AMs
Martin Cipollini:	Most orchard sites are low Ca. C dentata is sensitive to high Ca.
Martin Cipollini:	We have tried it. Lots of variation among branches on trees. Lower discrimination results.
Martin Cipollini:	Thanks for hosting these students!
Kendra Collins:	Thanks everyone!!! Glad I got to see your posters/work after missing the meeting in AVL!
Ken Lay:	Excellent! Thanks you!
